

Greetings,

I am looking to get more promotional material for my radio program and am inquiring about the possibility of your supporting my show. I have put together some information for your consideration.

I am the host of 'The Vault Radio Show'. The program has been on the air since 1996. All of the music heard on my show comes to me from distribution companies, record labels, or directly from the artists themselves. I also feature mixes and live performances from international acts whenever possible. Here are [audio archives](#) from some of my past guests. Additional information about what I do can be found on the [station's website](#) as well as the show's [Facebook page](#) and [YouTube channel](#).

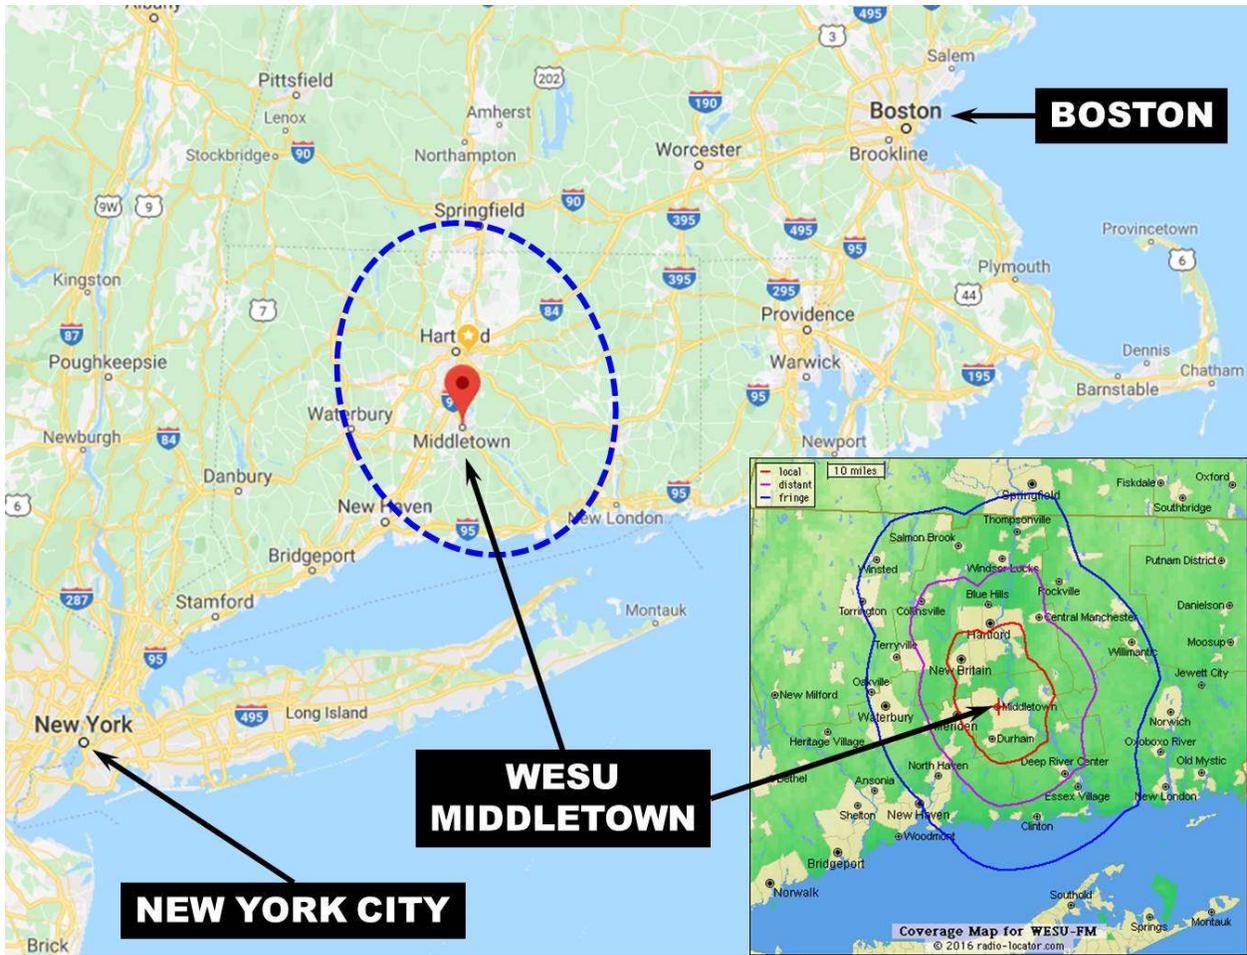

The program broadcasts live on 88.1FM WESU twice each month. WESU is a listener-supported, noncommercial radio station. The station's 6000W signal covers a three thousand square mile (~ eight thousand square kilometer) section of the United States directly between New York City and Boston. For clarity, the following page includes an image of the official broadcast coverage map (from [radio-locator.com](#)) along with a Google image of the greater area. This part of the United States is one of the most densely populated areas of the country. The last [CENSUS](#) showed that there are over 3.5 million people living in the region. It is impossible to know exactly how many people listen to the station however we have well over 1.1 million potential listeners based on the geographical area covered. Your music will reach the ears of a savvy audience where noncommercial techno is underrepresented.

I appreciate your time and consideration and look forward to working with you to spread the word about this fantastic music. Please feel free to contact me if there is any other information that you require.

Kind Regards,

A handwritten signature in black ink that reads "Anton Banks". The signature is written in a cursive, flowing style.

Anton Banks

Note: Middletown is about 100 miles (160 km) from both New York City and Boston.
